

Financing energy efficiency investments in the housing sector & small-scale energy systems

20 20 20 20 20 + 10 EU Energy Policy target 2020

- 20 % more energy efficient
- 20 % more renewable energy
- 20 % less CO₂
- 10 % biofuels

Huge 'win-win' potential especially in Central & Eastern Europe

- Fossil fuels substituted by biomass & waste
- Energy lost on its way to consumers
- Around two thirds of all energy lost in conversion, distribution and end-use

Energy efficiency focus

- Existing buildings
- Modernisation of district heating
- RES & CHP

RegEnergy Innovative heating solutions

- Restructure energy companies
- Support RES & EE & district heating
- Facilitate finance of good projects
- Promote innovative solutions
- Create European network

Clearinghouse support project Co-operation between 12 EU partners Modernise existing buildings

- Establish Project Service Facility in 5 European countries
- Make EU & national funds available
- Offer standardised financing to huge number of buildings
